29 September 2009

To whom it may concern,

RE Dirk Nierop

During the Papal visit in 2008 at the Randwick site where there were 250,000 people camping overnight and 500,000 people the following day; as well as the month leading up to the event, Dirk Nierop represented Anchor security in supervising security at night for 5 weeks.

Dirk had unlimited access to the whole site including the Papal Sacristy backstage and when the WYD08 organisers were asleep Dirk had the only set of master keys and made decisions on their behalf.

Dirk had clearance over and above most police attending and liaised with police commanders, the army and the Vatican guard.

Please find a brochure attached with a specific reference to World Youth Day and its success.

Kind regards,

Michael Malligan
Managing Director
