SUPPORT FOR WORKERS BACKS**

CAR AND TRAVEL WEDGES...

to maintain and support
spinal curves when travelling

The Bambach Car and Travel Wedges help to reduce the postural stress from sitting many hours in a poor posture. ie. For car drivers and passengers, truck drivers, tractor drivers, bus, plane or boat travellers.

COMPUTER AND DESK ACCESSORIES

Vurysers can raise your computer monitor so that the screen is opposite your face with the top of the screen opposite your eyebrow.

Deskalators can raise the height of your desk allowing you to sit comfortably while using your Bambach Seat.

GUARANTEE...

Thousands of Australians have already joined The Bambach Seat revolution. Its unique design is changing the face of workplaces all over Australia and is rapidly becoming popular in other parts of the world.

We believe The Bambach Seat will significantly reduce the incidence of back and neck ache during extended work periods where you are required to be seated. The Bambach Seat is designed by clinical experts and is crafted from superior Australian materials. Each one is rigorously checked to ensure that it conforms to Bambach's strict quality standards and comes with a 5 year warranty.

"I have owned one of your Bambach Saddle Seats for the last four years and consider my chair to be one of the best investments I have ever made. As I work as a Landscape Designer and spend most of the day drawing plans it is in use constantly. It has relieved former pains that I suffered in my lower back when standing over the drawing stand and provides me with comfort during long working hours.

Sally Bourne, Sally Bourne Landscapes (2003)

No more back pain or aching legs at the end of the day. Mobility, adjustment and comfort make this the ideal chair for veterinarians. I love my Bambach Saddle Seat and know you'll love yours too.

Advanced Posture Seating

Test yourself....

Put your hand on your lower spine while standing (Neutral position)

Sit on a conventional seat. Feel how your lower spine how it has collapsed backwards.

Now sit on the Bambach Seat and feel how it retains the "S" shape lumbar curve, as when standing.

How a Bambach works ... by providing...

- Relief from back pain
- Energy at the end of the day
- Natural easy balance
- Hands and arms can reach freely and easily
- Close access to work surface
- An open chest and abdomen giving good function for digestion and breathing
- **Neutral position** for back, neck, head and shoulders (Refer to spines chart diagram C)
- Feeling of well being
- Upright posture retaining natural spinal curves especially the lumbar curve

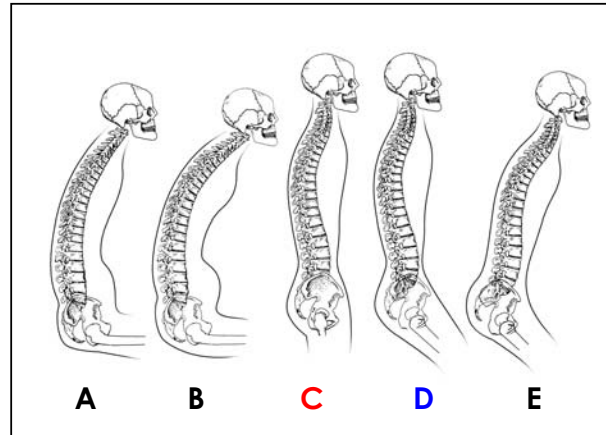

Tailored specially for you....

- Adjustable height.
- Adjustable seat tilt.
- Adjustable backrest.
- A wide choice of castors.
- Available with or without backrest
- Available in 8 leather look vinyl colours and 2 colours in fine quality wool.
- 5 year warranty
- Excellent after sales support
- Tested and approved to Australian standards for strength and durability by AFRDI to level 6
- **Product catalogue available**

Do you sit down to work?

Do you want to feel good at the end of the work day?

The Bambach Seat is for you!!!

SPINE CHART

- A** Chest and abdomen compressed from seat posture on conventional seat.
